Buying Wall Paper!

LIKE many other important matters is generally slighted at the time it should receive the most attention. A woman makes up her mind to paper a room and postpones all thought of design, color and style until she is at the store to make the purchase. Instead of having some definite plan of what she wants she just trusts to chance. Is it any wonder she is often disappointed? When you make up your mind to paper a room decide how you are going to do it, what color, the kind of design and the way it is to be put on. Make a mind picture of the finished room. If it is pleasing to you it is good style, no matter what Aunt Jane may think. I will help you if I can. It is no trouble to show papers, and I don't want you to buy unless you find what you are looking for. It may be in my 3c Specials.

Good taste is good style always. Good taste is a splendid substitute for expense; seven women out of ten will select the most appropriate design and color for their rooms which the stock offers, if left to themselves. Therefore, the important thing for them to consider is the stock to select from. Anyone can furnish wall papers that have only a house cleaning qualification—papers that simply cover up spots and dirt in the wall. Daly's stock is full of Tapestries, Two-Tone Stripes, Florals, Plaids, Pictorials and things out of the ordinary. A vast variety to select from—a chance to exercise that good taste possessed by almost every woman.

Beneficial to Everyone

In judging the value of these baths, one must consider their effect upon all classes of people. Upon persons in perfect health the action is as beneficial as it is agreeable, and even for certain classes of invalids it is invaluable. The danger is purely an imaginary one. The bather may demand a cold shower, but in nearly every case it is so graduated as to give no shock. Many critics seem to overlook the fact that these baths are not only excellent for the nervous system, but also stimulate the circulation.

MISCELLANY

Utica City Government

Utica was incorporated as a village April 7, 1817, and as a city February 13, 1832.

Chapter 473 of the Laws of 1906, providing a uniform charter for cities of the second class, which is commonly called the White Charter, came into force in Utica on January 1st, 1908. On that date Utica, Schenectady and Yonkers became cities of the second class, and as such entered the same group with Syracuse, Albany and Troy.

This charter makes general provision for the offices of the city as follows: Sec. 11. Elective officers.—There shall be elected by the qualified electors of the city, a mayor, comptroller, treasurer, president of the common council and four assessors. There shall be elected by the qualified electors of each ward of the city an alderman and a supervisor. There shall also be elected by the qualified electors of the city, and of the wards thereof such other officers as may be provided by law.

Sec. 12. Appointive officers—There shall be appointed by the mayor a corporation counsel, city engineer, commissioner of public works, commissioner of public safety, commissioner of charities and sealer of weights and measures. Other officers may be appointed as provided in this act or otherwise by law. All appointments to any city office shall be evidenced by a certificate in writing, signed by the appointing officer and filed forthwith in the office of the city clerk. If an appointment be made by the common council such certificate shall be signed by the officer presiding at the time the appointment was made and attested by the city clerk.

MILGATE STREET (South)

Milgate street is in two sections. It begins at Broad street and ends at Rutger street. It then, after an intermission, begins again at Albany street and runs to Eagle street. The residents on the southern part of the street from Albany to Eagle are trying to have the name of that portion of the street changed. For Directory purposes we have called the part of the street from Albany to Eagle, South Milgate.

RUTGER PARK

(See Rutger St.)

RUTGER STREET

Begins at West St. and Steuben Park, Runs to Masonic Home Grounds—4th, 8th, 10th and 13th Wards.

Several years ago Rutger Street was renumbered, causing much confusion. About four years ago the numbers were established on the north, between Steuben Park and First Street, by special resolution of the Common Council. Owing to the fact that no streets cross Rutger between the Park and Third Avenue, and in order to give the numbers, as well as the locations, as accurately as possible on this portion of the street, we give herewith the left side and right side separately from the beginning of the street to Morris Street. From that point the two sides are given together, following the same plans as with the other streets.

Left Side—

1 Mrs. Elizabeth Lawrence.
1 Dr. William Moffatt.
5 William H. Colgate.
7 George Snowdon.
9 Thomas E. Scott.
11 Isabelle S. DeVine.

AUGUST 3-10, 1914

in UTICA

Your friends will look
for you during

OLD HOME WEEK

(OVER)

THOS. C. PETERS PRINTING CO.

Everybody help to make a big success of Utica's Old Home Week

IT comes the week of August 3-10, 1914, and should be the greatest week in our history. Every man, woman and child can be of assistance. One big thing will be to

NOTIFY EVERYBODY

from Greenland's icy mountains to India's coral strand, to come home and shake hands, see all their old friends and have a good time.

SEND IN THE NAMES

If you have the name and address of any former Utican, send the same to Frank S. Judson, Secretary, Old Home Week Committee, and he will send your friend an official invitation to come. You may also have

SOME GOOD IDEAS

on how to make the week a big success. Don't be bashful. Mr. Judson will be glad to get your ideas. Let's all

PULL TOGETHER

for our own sakes, for the sake of the boys and girls who used to live here and

WESTCOTT GARAGE

The
Citizens Trust Company

OF UTICA, N. Y.

THE CITIZENS TRUST COMPANY'S GREAT SAFE DEPOSIT VAULTS ARE THE FINEST IN CENTRAL NEW YORK STATE

Officers

William I. Taber, President — **Watson T. Dunmore, Vice-Pres.**
W. Pierrepont White, Vice-Pres. — **Frank H. Doolittle, Sec'y**
P. N. Hamlin, Asst. Sec'y

OPEN that account with the CITIZENS TRUST COMPANY of Utica, N. Y. ¶It's building is on Seneca Square and it's business hours are from 10 to 3 —except on Saturdays, when they are open from 9 to 12. ¶It pays in it's Interest Fund Department 3½ per cent. a year and it calculates interest **monthly** and compounds it twice a year.

Interest is paid for each Full Calendar Month, no matter when you DEPOSIT or WITHDRAW it

More than the Entire Cost of Administration of Estates

can frequently be saved through their careful handling by the Citizens Trust Company of Utica, N. Y.

Many estates have been dissipated by the carelessness, incompetence, incapacity or dishonesty of individual executors.

We administer your Trust Estate impartially; we have no personal influences to serve; and we carry out the wishes of your Will. In every way our services are more satisfactory than those of an individual Executor and cost no more.

We operate under stringent legal safeguards and have more than 10,000 depositors and resources of over $6,000,000.

Selling Power in a Booklet is not Mere Chance

THE Catalog or Booklet that justifies its existence —that escapes the gaping mouth of the waste paper baler—and sells goods, is not conceived in a moment of inspiration, and rushed off the presses and into the mails like the unexpected rise of a partridge. The justified booklet is the result of the most painstaking effort.

Selling Power is the predominating influence that puts selling points in the illustrations and "pull" into the text. Selling Power is the standard by which every detail of the work is measured. It demands a word picture of the product that will influence sales; and insists that the whole shall be respectably clothed in an appropriate, attractive cover.

The ability to inject Selling Power, and the mechanical Equipment necessary to print a catalog are not synonymous terms. The ability to inject selling power is that faculty which enables its possessor to create, from the naked idea, printed publicity that will prove an investment rather than an expense. Mechanical equipment is a purely monetary matter between the printer and his supplyman.

With your co-operation we can put Selling Power into your advertising literature—and incidentally, we have the mechanical equipment necessary to produce high-grade printed matter.

Stationery for Business
and Professional Use

PERSONAL appearance is an important factor in the success or failure of countless undertakings. Whether or not there is any justice in judging a man by his clothes, is beside the mark—the fact remains.

Next to that first lasting impression based on personal appearance, correspondence is the nearest "point of contact" in business. And many a business impression—good or bad—is made through the stationery used.

The difference between indifferent stationery and the kind that gives lasting satisfaction long after the price is forgotten, should not be estimated from the point of money saved on the purchase price of the stationery, but on the basis of its sales value—the impression it will make on your prospect.

Impressive Stationery at a Usable Price

is a terse description of our product. The quality is high but the price is not exclusive. We use paper of known quality and National reputation, and the typographical arrangement of our work is the result of a careful study of the "fitness of things." We are ready to demonstrate the point. Are you open to conviction?

The Selling Force in a Good Picture Makes It Worth Many Times Its Cost

150 Line Screen Halftone from Retouched Photograph

(Not the best we can do, but the average job made under average every day conditions. A hurry-up job at that. The photo was very poor; it was retouched and plate made in four days.)

MECHANICALLY our plates are as near perfect as skilled artists and engravers can make them. But better than mechanical perfection is the faithfulness with which it shows your product. Selling force that gets orders for you; that's what you want and what we aim to put into our illustrations.
